

Needs Check Call Profiles

Find out if the DAKS module ‚Call Profiles‘ is of interest to you. Check all statements that apply to your organization / company:

- We provide service, information or other (also internal) hotlines.
- In our company/organization we also work with on-call services.
- Our employees should be reachable on several terminals with just one number, e.g. for better mobility, flexible offices, etc.
- We would like to arrange that certain phone numbers should only be reached by predefined, authorized users, e.g. VIPs, decision-makers, etc.
- We want certain phone numbers or service teams to be switched active or inactive at predefined times.

Even if only one statement applies to you, the DAKS module ‚Call Profiles‘ could be just the right solution for you. Get individual advice from your certified DAKS dealer! Find a DAKS dealer near you at partners.tetronik.com.
