

# Notifier-Pro

Multi Platform-Messaging with DAKS:  
User-friendly – Dependable – Flexible

## Typical Areas of Use

Shift swapping requests,  
requests for material, etc.

Messages to hospital  
logistics

Inform employees about  
events, e.g. conferences,  
special visitors, etc.

"Fire & forget"-messages,  
e.g. changes of lunch  
times or opening hours,  
maintenance, events, etc.

In our modern work environment, the growing and vast spectrum of communications media and channels frequently confront us with particular demanding challenges – especially when it comes to messages that need to reach many recipients who all use different target media.

**DAKS overcomes these obstacles and distributes messages reliably along different communications channels and media.**

Notifier-Pro is a convenient and intuitive messaging user interface. It enables you to use DAKS to reach many individual users or entire groups of users along various media – with one single message!

-  Select addressees conveniently
-  Save time using text templates
-  Reach many with minimal effort
-  Apply DAKS at any time, anywhere
-  Individual and easy reachability

With DAKS, mass notification has never been this easy...

 <b>Log in</b>	 <b>Adress</b>	 <b>Notify</b>	 <b>Send</b>
<ul style="list-style-type: none"><li>▪ Access the user-friendly and intuitive browser interface from anywhere, anytime</li><li>▪ Access and apply the contacts and profiles stored in DAKS</li></ul>	<ul style="list-style-type: none"><li>▪ Send messages to any individual subscriber and broadcast group configured centrally in DAKS</li><li>▪ Also send messages to any ad hoc addressee not yet configured in DAKS</li></ul>	<ul style="list-style-type: none"><li>▪ Quickly and effectively: Apply predefined templates and customize as needed</li><li>▪ Use tailor-fit messages for every occasion</li></ul>	<ul style="list-style-type: none"><li>▪ Along different and individually preferred communications channels (e-mail, text messages ....)</li><li>▪ Communicate confidential information safely through company-own platforms</li></ul>
